

Multi-Link Corp.
225 Industry Parkway
Nicholasville, KY 40356
December 1, 2010

Dear Valued Customer;

We want to take this opportunity to thank you for being a valued customer and update you the planned changes in Multi-Link pricing.

Recent and ongoing parts shortages and price increases have driven substantial increases in our costs. To insure we are able to maintain our supply chain we are today announcing a price increase on all products effective January 1, 2011.

These increases will amount to a \$6 per unit increase on all products at both the MSRP and Reseller list prices.

We realize that you have some outstanding customer commitments that were based on the current level discounts. To insure we do not adversely affect your business we are offering the following:

- For a period of 30 days from the date of this notice, you may place non-cancellable orders for Multi-Link products that are to be shipped within six months of the date of this notice.

We hope this will ease any transition issues and assure little to no disruption in your business.

We look forward to a long and prosperous business relationship.

Regards,

Larry Anderson
